

EQUALITY POLICY

At IK4-Ikerlan we are committed to fostering equality in the different areas within our group of people.

The Equality, Reconciliation and Joint responsibility projects are fostered in the context of the Etorkizuna Eraikiz initiative, used by the Provincial Council of Gipuzkoa to advance in women and men's equality in the labour and business areas, from the start point of specificity of the companies in the territory. In 2016, 10 pilot projects were started, and in that year 10 new companies were incorporated, IK4-Ikerlan being one of them.

This project is established in the framework of our value of cooperation, since it delivers us a professional and life quality in line with our calling.
